**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Energy Policy Act of 2005, 25 U.S.C. 3502(a)(2)(B) authorizes the Secretary of the Interior to provide grants to assist Indian tribes in the development of energy resources and further the goal of Indian self-determination.

The Office of Indian Energy and Economic Development (IEED) administers and manages the energy resource development grant program under the Energy and Minerals Development Program (EMDP). Congress may appropriate funds to EMDP on a year-to-year basis. When funding is available, IEED may solicit proposals for energy resource development projects from Indian tribes and tribal energy resource development organizations for use in carrying out projects to promote the integration of energy resources, and to process, use or develop those energy resources on Indian land. The projects may be in the areas of exploration, assessment, development, feasibility, or market studies. Indian tribes that would like to apply for an EMDP grant must submit an application that includes certain information, and must assist IEED by providing information in support of any National Environmental Policy Act (NEPA) analyses.

## **III. Data**

OMB Control Number: 1076-0174.

Title: Energy and Mineral Development Program Grants.

Brief Description of Collection: Indian tribes that would like to apply for an EMDP grant must submit an application that includes certain information. A complete application must contain a current, signed tribal resolution that provides sufficient information to authorize the project and comply with the terms of the grant; a proposal describing the planned activities and deliverable products; and a detailed budget estimate. The IEED requires this information to ensure that it provides funding only to those projects that meet the goals of the EMDP and purposes for which Congress provides the appropriation. Upon acceptance of an application, a tribe must then submit one – to two – page quarterly progress reports summarizing events, accomplishments, problems and/or results in executing the project. A response is required to obtain a benefit.

Type of Review: Extension without change of currently approved collection.

Respondents: Federally recognized Indian tribes with Indian land.

Number of Respondents: 75 applicants per year; 30 project participants each year.

Frequency of Response: Once per year for applications; 4 times per year for progress reports.

Estimated Time per Response: 40 hours per application; 1.5 hours per progress report.

Estimated Total Annual Hour Burden: 3,180 hours (3000 for applications and 180 for progress reports).

Estimated Total Annual Non-Hour Burden: \$0.
